Requirements Traceability Matrix: Member Premium Payment Portal

Portfolio sample by Shweta Mahajan. Northwind Health Plan is fictional; all data is invented. Test results are illustrative.

BR ID	Business Requirement	Priority	FR ID	Functional Requirement	User Story	Acceptance Criteria	Test Case ID	Test Scenario	UAT Result	Defect / Comment
BR-01	View premium, due date, grace status	High	FR-01	Display premium amount, due date, and account status	US-01	AC-01.1	TC-01	Open payment page as active member	Pass	
BR-01	View premium, due date, grace status	High	FR-02	Show grace period notice with last day to pay	US-01	AC-01.2	TC-02	Open page on day 10 of grace period	Pass	
BR-01	View premium, due date, grace status	High	FR-03	Show Paid status and hide pay button	US-01	AC-01.3	TC-03	Open page after successful payment	Pass	
BR-02	Pay online by ACH or card	High	FR-04	Accept ACH or card payment details	US-02	AC-02.1	TC-04	Submit valid ACH and valid card payment	Pass	
BR-02	Pay online by ACH or card	High	FR-05	Show clear error for invalid details	US-02	AC-02.2	TC-05	Submit invalid routing number	Pass	
BR-02	Pay online by ACH or card	High	FR-06	Display confirmation number on screen	US-02	AC-02.3	TC-06	Complete payment and check confirmation	Pass	
BR-03	Flag amount mismatch before posting	High	FR-07	Compare payment to billed amount	US-03	AC-03.1	TC-07	Pay exact billed amount	Pass	
BR-03	Flag amount mismatch before posting	High	FR-07	Hold higher or lower payment with reason	US-03	AC-03.2	TC-08	Pay $10 under and $10 over billed amount	Pass	
BR-03	Flag amount mismatch before posting	High	FR-08	Show under-review message to member	US-03	AC-03.3	TC-09	View portal after held payment	Pass	
BR-04	Post confirmed payment within 2 minutes	High	FR-09	Post confirmed payment within 2 minutes	US-04	AC-04.1	TC-10	Time posting after gateway confirmation	Pass	
BR-04	Post confirmed payment within 2 minutes	High	FR-10	Flag posting that takes over 2 minutes	US-04	AC-04.3	TC-11	Simulate slow billing API	Fail	DEF-014: no flag raised after 2 minutes; sent back to dev
BR-04	Post confirmed payment within 2 minutes	High	FR-11	Send confirmation email	US-04	AC-04.4	TC-12	Check email after posted payment	Pass	
BR-05	Detect and block duplicate payments	High	FR-12	Block second payment for same period	US-05	AC-05.1	TC-13	Pay twice in the same billing period	Pass	
BR-05	Detect and block duplicate payments	High	FR-13	Record blocked attempt in audit log	US-05	AC-05.3	TC-14	Review audit log after blocked attempt	Pass	
BR-06	Notify on failed payment and allow retry	Medium	FR-14	Show decline reason and retry option	US-06	AC-06.1	TC-15	Submit card that the gateway declines	Pass	
BR-06	Notify on failed payment and allow retry	Medium	FR-15	Send failure email	US-06	AC-06.2	TC-16	Check email after declined payment	Pass	
BR-06	Notify on failed payment and allow retry	Medium	FR-16	Limit retries to 3 in 24 hours	US-06	AC-06.3	TC-17	Fail payment 4 times in a day	Not Run	Scheduled for next test cycle
BR-07	Exception queue with audit log	High	FR-17	List held payments with reason	US-07	AC-07.1	TC-18	Open exception queue	Pass	
BR-07	Exception queue with audit log	High	FR-18	Approve, adjust, or reject held payment	US-07	AC-07.2	TC-19	Process one item with each action	Pass	
BR-07	Exception queue with audit log	High	FR-19	Log every user action	US-07	AC-07.3	TC-20	Review audit log after actions	Pass	
BR-08	Payment status dashboard	Medium	FR-20	Show payment totals and open exceptions	US-08	AC-08.1	TC-21	Open dashboard and compare to test data	Pass	
BR-08	Payment status dashboard	Medium	FR-21	Filter dashboard by date range	US-08	AC-08.2	TC-22	Apply last 7 days and last 30 days	Pass	
BR-08	Payment status dashboard	Medium	FR-22	Show % posted within 2 minutes	US-08	AC-08.3	TC-23	Check metric against timed test payments	Pass	

UAT and Coverage Summary

Counts below are formulas that update when the RTM sheet changes.

Total test cases	23
Passed	21
Failed	1
Not run	1
Pass rate (of all test cases)	91.3%

Requirement coverage

BR ID	Business Requirement	Priority
BR-01	View premium, due date, grace status	High
BR-02	Pay online by ACH or card	High
BR-03	Flag amount mismatch before posting	High
BR-04	Post confirmed payment within 2 minutes	High
BR-05	Detect and block duplicate payments	High
BR-06	Notify on failed payment and allow retry	Medium
BR-07	Exception queue with audit log	High
BR-08	Payment status dashboard	Medium

Legend: Pass / Fail / Not Run are chosen from a dropdown in RTM column J. Edit only the RTM sheet; this sheet recalcu
